The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 15-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Clark, Jr. et al..

The patent to Clark, Jr., et al. discloses a hand held GUI/GPS device that has GIS software, as described in the abstract. The device uses a grid that is adjustable in size as discloses in column 15, lines 1-10 and Figure 61. The device uses a PDA in the field and a PC that it downloads information to. The user may keep track of temperature and hydrology as shown in Figure 30.

Claims 1-14 are allowed.
